

# DC100130

Proximity Probe Extension Cable for 8 mm PRO Proximity Probes, with FEP or Armor Jacket

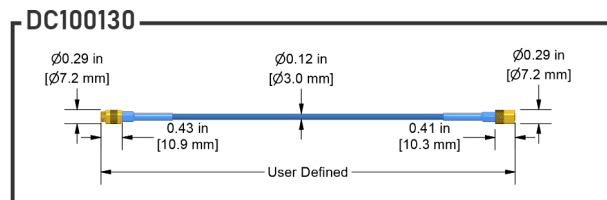

## Product Features

PRO DC1001 extension cables combine with DP1001 series probes and DD1001 series drivers to form a complete assembly to monitor vibration and shaft position

Standard and Armor Jacket Options Available

- ▶ Excellent chemical resistance
- ▶ Upgraded to include SecureLock Connector
- ▶ Optional Connector Protectors to cover connections to avoid grounding issues if exposed to metal

Lengths AA, BB, and CC are configurable

## Specifications

|                         |                                                                       |
|-------------------------|-----------------------------------------------------------------------|
| Temperature Range       | -49 to 340 °F (-45 to 171 °C)                                         |
| Material                | FEP (Fluoroethylene Propylene) Jacket                                 |
| Rating                  | IP60 Rated Connection between Prox Probe & Extension Cable Connectors |
| Connector               | SecureLock                                                            |
| Connector Pull Strength | Up to 30 lbs.                                                         |
| System Length           | Matched to 5 & 9 meter system lengths                                 |
| Bending Radius          | 1.16 in. (2.95 cm)                                                    |
